ABSTRACT

Data provided from the Research and Planning, Enrollment and Degrees System (RPEDS) in the state of Massachusetts are offered. Tables are presented with a focus on: total enrollment; gender; race/ethnicity; age; and comparison with Integrated Postsecondary Education Data System (IPEDS) enrollment. Specific findings include: a total of 128,781 persons were enrolled in Massachusetts public universities, state colleges, and community colleges for the fall of 1987, which amounted to 108,043 full-time equivalents (FTE); women made up 55% and men comprised 45% of the entire student population; Blacks comprised 4.8%, Hispanics 2.9%, Asians 2.3%, and Native Americans 0.3% of total enrollments; the mean age for all students was 24.1 years; those students 30 years or older comprised 18% of all students; as age increased, there was a consistent, steady decline in the average credit loads of all undergraduates; and comparisons of this student population with all students enrolled in the public higher education system provide tentative findings regarding students enrolled in Division of Continuing Education (DCE). The comparisons indicate that greater proportions of minorities enrolled among state supported students while higher percentages of women and Whites enrolled among the DCE population and especially among DCE graduate students. Four appendices provide statistical data on: all students by segment and institution (includes FTE); undergraduates and graduate students by segment and institution (includes FTE); part-time and full-time undergraduates by segment and institution; and combined state supported and DCE enrollment from the 1987 IPEDS Summary Report. Summary

Recent enrollment figures indicate that the community colleges in Massachusetts tend to enroll a very non-traditional student population. In the Fall of 1987, students at the community colleges were much older (an average of 25 years of age) than those at the state colleges and universities. A higher proportion (33%) attended on a part-time basis, contributing to an average credit load of slightly below 12 contact hours per semester (11.8). In contrast, the data place the state colleges at the other end of the public higher education spectrum. These institutions enrolled much more traditional students with respect to age (21.8 years), proportion of full-time undergraduate enrollment (91.7%), and average credit load (14.2 hours).

Data provided from the Research and Planning, Enrollment and Degrees System (RPEDS) show that in the Fall of 1987, more than 128,000 students supported by state higher education appropriations were enrolled in all of the public colleges and universities of Massachusetts. This enrollment represented a 1.4% increase over 1986 and an 11.6% growth from 1982. More than half (55%) of these students were women and over 10% were minorities with Black students representing 4.8% of total enrollments. Relatively lower percentages of women (48%) and Blacks (3.4%) were enrolled among graduate students but high proportions of women, Blacks and Hispanics were enrolled as part-time undergraduates. The enrollment of Asian students was concentrated at the universities, while the proportion of Whites enrolled was highest at the state colleges (95%). The community colleges had the highest proportions of women (61%), Blacks (7.2%), and Hipanics (5.0%).

These findings suggest a need to further encourage the transfer of minority students from two- to four-year colleges. Higher rates of minority transfers would promote needed diversity at the state colleges while providing more minorities access to baccalaureate and higher degrees. The relatively low percentages of women and Blacks among graduate students also may call for further linkage and collaboration between the segments, in this instance between the state colleges and the universities. More extensive development of adequately funded quality graduate programs outside of the universities may bring more of these students into such programs, especially if plans to further promote the transfer of minorities to the state colleges are, in fact, successful. As cited in 1987 New Hires and Total Employment, the low proportions of women and Blacks employed as faculty during 1987 highlight the immediate need to enroll higher proportions of women and Blacks in graduate programs.

Some of the specific findings include:

- A total of 128,781 persons were enrolled in the public universities, state colleges, and community colleges of Massachusetts for the Fall of 1987. This enrollment amounted to 108,043 full-time equivalents (FTE).

- Women made up 55% and men comprised 45% of the entire student population. Close to 36% of all women, but only 28% of all men, were enrolled at the community colleges. At the universities, however, there were slightly more men (51%) than women (49%). Among part-time undergraduates women represented the majority (63%).

- Blacks comprised 4.8%, Hispanics 2.9%, Asians 2.3%, and Native Americans 0.3% of total enrollments. High proportions of Hispanics (4.1%) and Blacks (6.5%) were enrolled as part-time undergraduates. These groups also were concentrated at the community colleges where 58% of all Hispanics and 50% of all Blacks were enrolled. Almost 55% of all Asians, on the other hand, were at the universities.

- The mean age for all students was 24.1 years old. Students at the community colleges, with an average age of 25.4 years old, were older than those at the state colleges and undergraduates at the universities whose average ages were 21.8 and 22.5 years old respectively. Full-time undergraduates (21.7 years old) were more than eight years younger on the average than undergraduates attending on a part-time basis (30.0 years old).

- Those students 30 years old or older comprised 18% of all students. Over two thirds of these students were women. Large proportions of minorities also were found in this age group. Less than 16% of all Whites were at least 30 years old but 25% of all Blacks, 27% of all Hispanics, 22% of all Asians, and 26% of all Native Americans were 30 years old or older. While only 8% of the students at the state colleges were 30 years old or older, 23% and 18% of those at the community colleges and the universities respectively were at least 30 years old.

- As age increased, there was a consistent, steady decline in the average credit loads of all undergraduates. While all undergraduates less than 19 years old averaged 14.6 credit hours,

those 23 to 29 years old averaged only 11.7 credit hours. Those groups of undergraduates 30 to 39 years old, 40 to 59 years old, and 60 years old or older averaged 9.9, 9.2, and 5.8 credit hours respectively[1].

- Comparisons of this student population with all students enrolled in the public higher education system -- state supported and Division of Continuing Education (DCE) students combined -- provide tentative findings regarding students enrolled in DCE. The comparisons indicate that greater proportions of minorities enrolled among state supported students while higher percentages of women and Whites enrolled among the DCE population and especially among DCE graduate students. Greater proportions of DCE students also enrolled at the state and community colleges and more attended on a part-time basis in comparison to state supported students.

Total Enrollment

Of the 128,781 students enrolled for the Fall of 1987, 90% were undergraduates (see Table 1)[2]. Almost 80% of all undergraduates enrolled as full-time students. The universities enrolled the largest proportion of all students, followed by the community colleges and lastly, the state colleges (see Table 2). While the undergraduate and full-time undergraduate populations loosely followed this pattern, virtually all of the graduate students were at the universities. Almost 60% of all part-time undergraduates, however, were enrolled at the community colleges.

Table 1

Student Population by Segment (Row %)

	All Students			Undergraduates		
Segment	Total	Undergraduate	Graduate	Total	Full-time	Part-time
Universities	58,135	78.7%	21.4%	45,721	84.3%	15.7%
State Colleges	28,871	99.4%	0.6%	28,689	91.7%	8.3%
Community Colleges	41,775	100.0%	0.0%	41,775	67.0%	33.0%
Total	128,781	90.2%	9.8%	116,185	79.9%	20.1%

Table 2

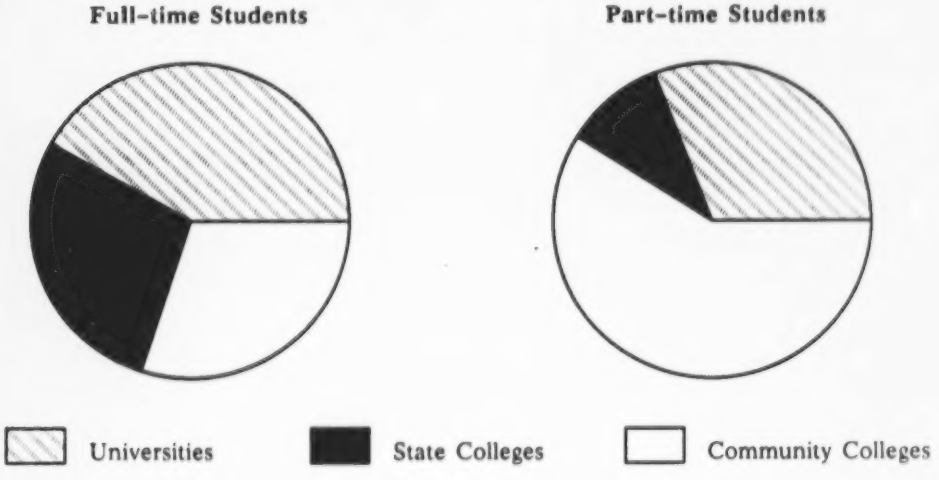
Student Population by Segment (Column %)

Segment	Total	Undergraduate	Graduate	Full-time Undergraduate	Part-time Undergraduate
Universities	45.1%	39.4%	98.6%	41.5%	30.7%
State Colleges	22.4%	24.7%	1.4%	28.3%	10.2%
Community Colleges	32.4%	36.0%	0.0%	30.1%	59.0%
Total	100.0%	100.0%	100.0%	100.0%	100.0%

The dramatic differences in the distributions of full-time and part-time undergraduates by segment are presented below in Figure 1.

Figure 1

Distribution of Undergraduate Students by Segment



For the entire system, undergraduate and graduate students combined, there was a total of 108,043 full-time equivalents (FTE)[3] (see Table 3). While the distribution of FTE across segments paralleled that of student headcount, the proportions of FTE at the state colleges and community colleges were slightly higher and lower respectively than the proportions of students at these segments.

Table 3

FTE of Student Population by Segment

	+----------FTE----------+			+----------Column %----------+		
Segment	Total	Undergraduate	Graduate	Total	Undergraduate	Graduate
Universities	48,108	41,115	6,993	44.5%	40.8%	97.9%
State Colleges	27,217	27,066	151	25.2%	26.8%	2.1%
Community Colleges	32,718	32,718	---	30.3%	32.4%	---
Total	108,043	100,899	7,144	100.0%	100.0%	100.0%

Gender

Over 55% of all students were women (see Table 4). Women were in the minority among graduate students but composed over 60% of all part-time undergraduates[4]. By segment, community colleges had the largest percentage of women (61%), followed closely by the state colleges and lastly, the universities where just under half of the students were women[5].

Table 4

Percent of Women in each Student Population by Segment

Segment	Total	Undergraduate	Graduate	Full-time Undergraduate	Part-time Undergraduate
Universities	49.2%	49.5%	47.8%	48.7%	54.0%
State Colleges	58.8%	58.6%	80.2%	58.1%	64.1%
Community Colleges	60.7%	60.7%	---	57.2%	67.9%
Total	55.1%	55.8%	48.3%	53.9%	63.2%

The distribution of men and women across segments differed most among part-time undergraduates. More than 60% of all women enrolled as part-time undergraduates were at the community colleges while only about half of their male counterparts were enrolled at these schools (see Tables 5 and 6). For each student population except graduate students, the proportion of all men who were enrolled at the universities was about ten percent higher than the percentage of all women who attended these institutions.

Table 5

Percent of Women by Student Population by Segment (Column %)

Segment	Total	Undergraduate	Graduate	Full-time Undergraduate	Part-time Undergraduate
Universities	40.3%	35.0%	97.6%	37.5%	26.2%
State Colleges	23.9%	26.0%	2.4%	30.6%	10.4%
Community Colleges	35.7%	39.1%	0.0%	31.9%	63.4%
Total	100.0%	100.0%	100.0%	100.0%	100.0%

Table 6

Percent of Men by Student Population by Segment (Column %)

Segment	Total	Undergraduate	Graduate	Full-time Undergraduate	Part-time Undergraduate
Universities	51.1%	45.0%	99.4%	46.3%	38.5%
State Colleges	20.6%	23.1%	0.6%	25.8%	10.0%
Community Colleges	28.3%	31.9%	0.0%	28.0%	51.5%
Total	100.0%	100.0%	100.0%	100.0%	100.0%

Race / Ethnicity

Minorities made up over ten percent of all students (see Table 7). Blacks made up 4.8%, Hispanics 2.9%, Asians 2.3%, and Native Americans 0.3% of all those enrolled for the Fall of 1987. The vast majority of students were White (87%) and about 3% were Non-Resident Aliens.

Table 7

Race/Ethnicity by Segment (Row %)

Segment	Total Headcount	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	58,135	84.8%	4.2%	2.3%	3.0%	0.3%	5.5%
State Colleges	28,871	94.7%	2.4%	1.0%	0.8%	0.4%	0.7%
Community Colleges	41,775	83.3%	7.2%	5.0%	2.6%	0.3%	1.7%
Total	128,781	86.6%	4.8%	2.9%	2.3%	0.3%	3.1%

Minority enrollment varied greatly by segment and by student population. Minorities represented over 15% of all students at the community colleges but less than 5% of those at the state colleges (see Figure 2). Undergraduates were comprised of a slightly higher proportion of minorities (10.4%) than were graduate students (9.3%), while the percentage of minorities among part-time undergraduates (13.4%) was notably higher than that of full-time undergraduates (9.8%).

The distribution of race across segments shows that Blacks and Hispanics were concentrated at the community colleges while the majority of Asians were enrolled at the universities (see Table 8). Half of all Blacks and almost 60% of all Hispanics were at the community colleges. Close to 55% of all Asians along with more than 75% of all Non-Resident Aliens attended the universities.

Figure 2

Minority Enrollment

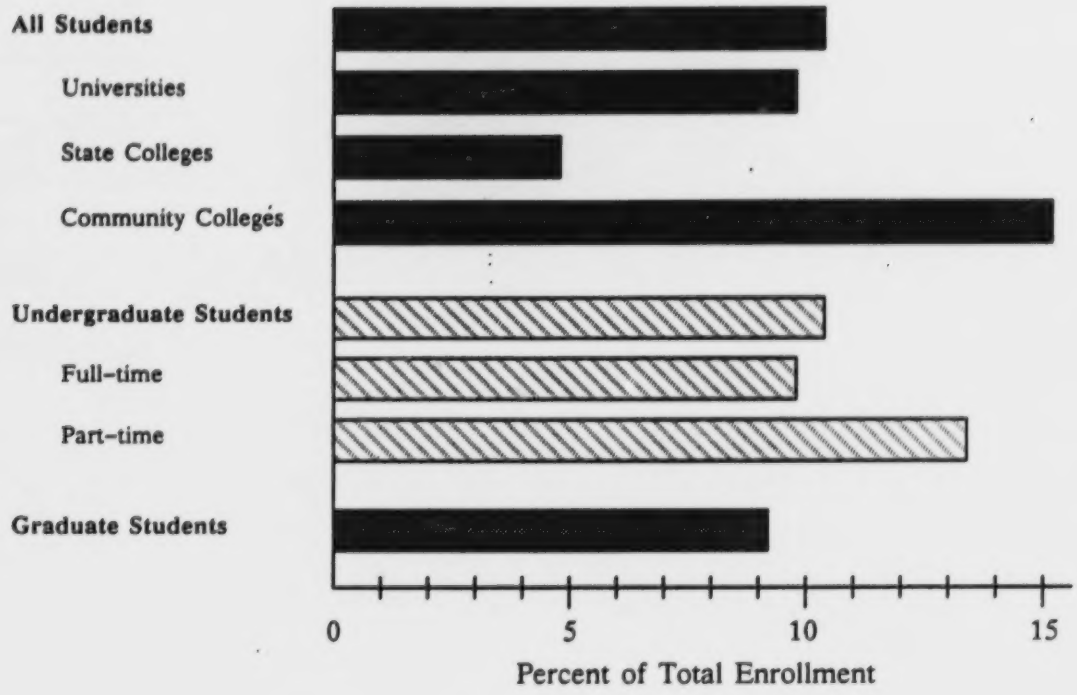


Table 8

Race/Ethnicity by Segment (Column %)

Segment	Total	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	45.1%	42.4%	38.3%	34.1%	54.9%	38.1%	76.8%
State Colleges	22.4%	25.6%	11.6%	8.1%	7.6%	29.7%	5.4%
Community Colleges	32.4%	32.1%	50.0%	57.8%	37.5%	32.2%	17.8%
Total	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

The racial composition of undergraduates was very similar to that of all students (see Table 9). There was a slightly higher percentage of Whites but a lesser proportion of Non-Resident Aliens among the undergraduates than among the overall population.

Table 9

Undergraduate Race/Ethnicity by Segment (Row %)

Segment	Total Headcount	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	45,721	88.0%	4.5%	2.1%	3.0%	0.3%	2.1%
State Colleges	28,689	94.7%	2.4%	1.0%	0.8%	0.4%	0.7%
Community Colleges	41,775	83.3%	7.2%	5.0%	2.6%	0.3%	1.7%
Total	116,185	88.0%	4.9%	2.9%	2.3%	0.3%	1.6%

Graduate student enrollment included lesser proportions of Blacks, Hispanics, Native Americans, and Whites, but a slightly higher percentage of Asians and a much higher percentage of Non-Resident Aliens than the entire student enrollment (see Table 10). All of the relatively few graduate students at the state colleges were White.

Table 10

Graduate Race/Ethnicity by Segment (Row %)

Segment	Total Headcount	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	12,414	72.2%	3.4%	2.7%	3.0%	0.2%	18.5%
State Colleges	182	100.0%	0.0%	0.0%	0.0%	0.0%	0.0%
Community Colleges	0	---	---	---	---	---	---
Total	12,596	72.3%	3.4%	2.7%	3.0%	0.2%	18.4%

The racial and ethnic breakdown of the full-time undergraduates very closely followed that of all undergraduates (see Table 11). Whites comprised a slightly greater proportion while Non-Resident Aliens made up a lesser proportion of the full-time undergraduates as compared to the total student population. Part-time undergraduates, on the other hand, were composed of higher percentages of minorities than were all students (see Table 12).

Table 11

Full-time Undergraduate Race/Ethnicity by Segment (Row %)

Segment	Total Headcount	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	38,544	88.5%	4.0%	2.1%	2.9%	0.3%	2.2%
State Colleges	26,295	94.8%	2.4%	1.0%	0.7%	0.3%	0.7%
Community Colleges	27,975	82.5%	7.4%	4.9%	2.9%	0.3%	2.0%
Total	92,814	88.5%	4.6%	2.6%	2.3%	0.3%	1.7%

Table 12

Part-time Undergraduate Race/Ethnicity by Segment (Row %)

Segment	Total Headcount	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	7,177	84.6%	7.6%	2.5%	3.6%	0.3%	1.4%
State Colleges	2,394	93.3%	2.6%	1.3%	1.3%	1.1%	0.3%
Community Colleges	13,800	84.8%	6.7%	5.2%	2.0%	0.3%	1.0%
Total	23,371	85.6%	6.5%	4.1%	2.4%	0.4%	1.0%

Age

The mean age of all students was 24.1 years old (see Table 13). Part-time undergraduates were over eight years older than full-time undergraduates on the average. The community colleges had the oldest students while the state colleges had the youngest enrollment by a notable margin.

Table 13

Mean Age of Student Population by Segment

Segment	Total	Undergraduate	Graduate	Full-time Undergraduate	Part-time Undergraduate
Universities	24.4	22.5	31.9	21.4	28.3
State Colleges	21.8	21.8	29.2	21.1	29.0
Community Colleges	25.4	25.4	---	22.6	31.3
Total	24.1	23.4	31.9	21.7	30.0

The mean ages of all students presented by gender and by race/ethnicity show that women and minorities were older than their male and White counterparts (see Table 14). Women were older than men while most groups of minorities were at least two years older on the average than Whites[6].

Table 14

Mean Age of Sex and Race/Ethnicity by Segment

Segment	Total	Men	Women	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	24.4	23.9	25.0	23.7	26.6	25.0	23.9	25.9	26.3
State Colleges	21.8	21.4	22.1	21.6	21.4	21.8	21.8	25.3	22.4
Comm. Colleges	25.4	23.4	26.6	25.1	26.4	26.5	27.7	27.9	24.3
Total	24.1	23.2	24.9	23.6	25.9	25.6	25.2	26.3	25.7

Almost 18% of all students were 30 years old or older (see Table 15)[7]. Just over half of all graduate students were among this age group along with about 40% of all part-time undergraduates. In contrast, only 8% of all full-time undergraduates were 30 years old or older. The community colleges had the largest proportion of students (23%) among this group while fewer than 8% of the students at the state colleges were at least 30 years old.

A larger proportion of all women than of all men and much greater percentages of all minorities than of all Whites were at least 30 years old (see Table 16). This pattern was consistent across all segments except at the state colleges where there were greater proportions of Hispanics and Native Americans but lesser percentages of Blacks and Asians than of Whites.

Table 15

All At Least 30 Years Old as % of All with Known Age — Student Population by Segment

Segment	Total	Undergraduate	Graduate	Full-time Undergraduate	Part-time Undergraduate
Universities	18.3%	9.9%	51.2%	5.6%	33.6%
State Colleges	7.9%	7.8%	37.5%	5.4%	35.4%
Community Colleges	23.4%	23.4%	---	13.4%	43.7%
Total	17.6%	14.2%	51.2%	7.9%	39.8%

Table 16

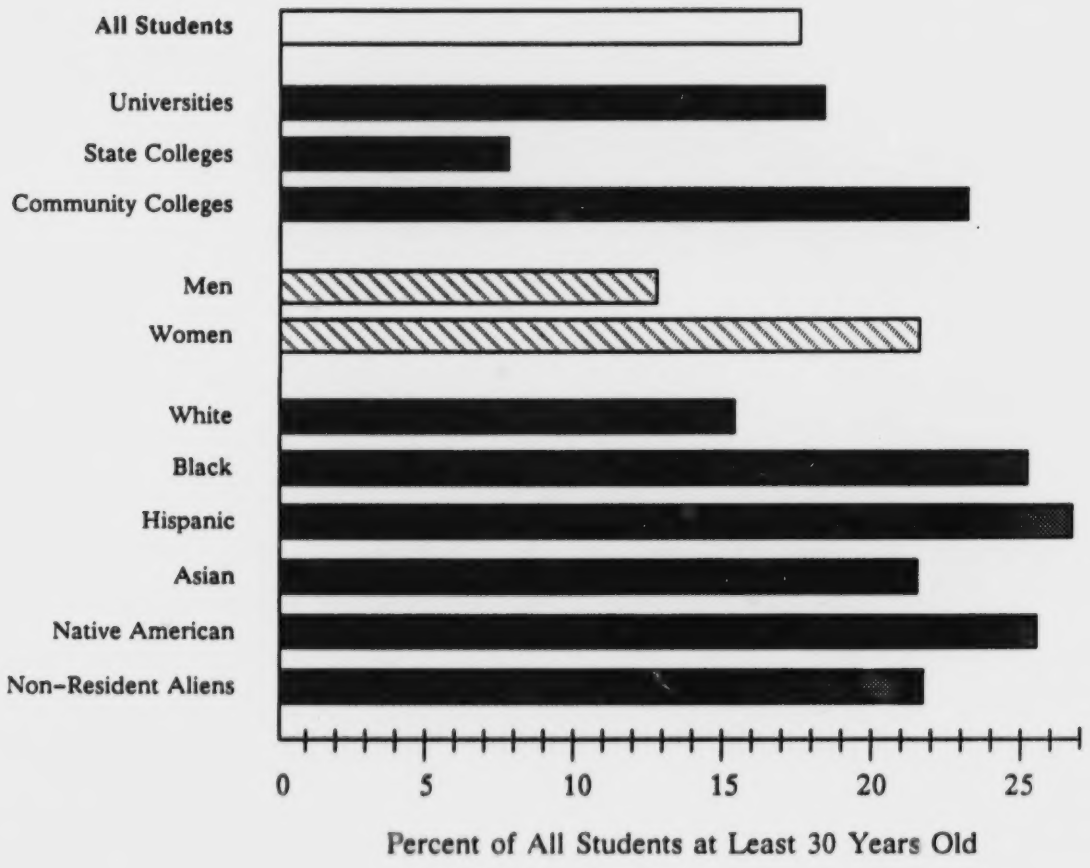
All At Least 30 Years Old as % of All with Known Age -- Sex and Race/Ethnicity by Segment

Segment	Total	Men	Women	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	18.3%	15.3%	21.4%	15.5%	28.0%	23.6%	16.0%	24.8%	24.8%
State Colleges	7.9%	4.6%	10.2%	7.3%	5.5%	9.3%	4.5%	20.0%	5.4%
Comm. Colleges	23.4%	14.1%	29.3%	22.2%	27.5%	31.0%	33.3%	32.1%	14.7%
Total	17.6%	12.8%	21.5%	15.5%	25.1%	26.7%	21.7%	25.6%	21.9%

The large differences by segment, gender, and race in the percentages of students at least 30 years old are shown in Figure 3 below.

Figure 3

Students at Least 30 Years Old by Segment, Gender, and Race/Ethnicity



Within the population of all students 30 years old and older, women and minorities comprised greater proportions of the total in comparison to the entire student population. Over 67% of all those at least 30 years old were women while more than 15% were minorities (see Table 17). Of all students, 55% were women and just over 10% were minorities (see Tables 4 and 7).

Table 17

All At Least 30 Years Old -- Sex and Race/Ethnicity by Segment (Row %)

Segment	Total	Men	Women	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	10,435	42.4%	57.6%	78.7%	7.2%	3.2%	2.8%	0.4%	7.7%
State Colleges	2,231	24.2%	75.8%	94.9%	1.8%	1.3%	0.5%	1.1%	0.5%
Comm. Colleges	9,611	23.7%	76.3%	79.8%	8.4%	6.6%	3.8%	0.4%	1.0%
Total	22,277	32.5%	67.5%	80.9%	7.2%	4.6%	3.0%	0.5%	3.9%

The average credit loads of undergraduates declined steadily with age[8]. While all undergraduates less than 19 years old averaged 14.6 credit hours, those 23 to 29 years old averaged only 11.7 credit hours (see Table 18). Those undergraduates 30 to 39 years old, 40 to 59 years old, and 60 years old and older averaged 9.9, 9.2, and 5.8 credit hours respectively. Undergraduates at the state colleges had the highest average credit load, followed by those at the universities and lastly, by those at the community colleges[9].

Table 18

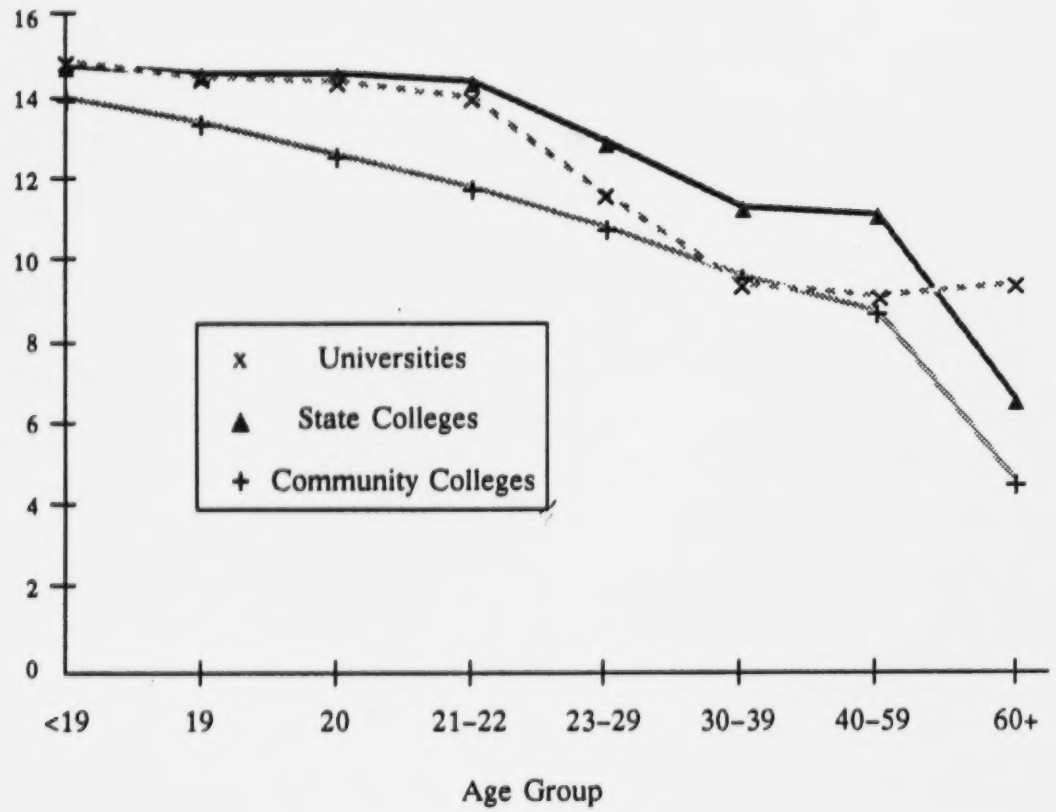
Average Credit Load in Credit Hours -- Undergraduates in a Given Age Group by Segment

Segment	All	<19	19	20	21-22	23-29	30-39	40-59	60+
Universities	13.5	15.0	14.6	14.5	14.1	11.7	9.5	9.2	9.5
State Colleges	14.2	14.9	14.7	14.7	14.5	13.0	11.4	11.2	6.7
Comm. Colleges	11.8	14.1	13.5	12.7	11.9	10.9	9.7	8.8	4.7
Total	13.0	14.6	14.2	14.1	13.7	11.7	9.9	9.2	5.8

The average credit loads of undergraduates presented in Table 18 are shown as a line graph in Figure 4 below.

Figure 4

Average Credits by Age Group
Undergraduate Students



Comparison with IPEDS Enrollment

The 1987 Integrated Postsecondary Edcuation Data System (IPEDS) Summary Report presents enrollment data covering all students -- Division of Continuing Education (DCE) students and state supported students combined -- in the state's public higher education system[10]. In contrast to state supported students alone, among this total student population, part-time undergraduates comprised over 40% of all undergraduates (see Tables 1 and 19)[11]. At the community colleges, part-time undergraduates even made up the majority -- close to 60% of all students enrolled. Distinctions between the Research and Planning, Enrollment and Degrees System (RPEDS) and IPEDS along with definitional issues regarding DCE students limit the inferences one can draw about DCE students from these comparisons. These findings tentatively indicate, however, that a much higher proportion of DCE students were attending on a part-time basis.

Table 19

State Supported and DCE -- Student Population by Segment (Row %)

	All Students			Undergraduates		
Segment	Total	Undergraduate	Graduate	Total	Full-time	Part-time
Universities	65,283	81.1%	18.9%	52,976	72.1%	27.9%
State Colleges	48,014	85.2%	14.8%	40,925	66.1%	33.9%
Community Colleges	70,472	100.0%	0.0%	70,472	40.2%	59.8%
Total	183,769	89.4%	10.6%	164,373	56.9%	43.1%

Unlike the state supported population, the highest proportion of both state supported and DCE students was enrolled at the community colleges rather than at the universities (see Tables 2 and 20). A much lower percentage of the graduate students in this total student population -- less than two thirds -- were enrolled at the universities. The proportion of part-time undergraduates also was smaller at the universites but larger at the state colleges in comparison to state supported students alone. Lesser percentages of DCE students seem to have enrolled at the universities while greater proportions enrolled at the state and community colleges. This result is not surprising since the universities have developed an extended day concept for their state supported enrollments.

Table 20

Student Population by Segment (Column %)

Segment	Total	Undergraduate	Graduate	Full-time Undergraduate	Part-time Undergraduate
Universities	35.5%	32.2%	63.7%	40.8%	20.9%
State Colleges	26.1%	24.9%	36.3%	28.9%	19.6%
Community Colleges	38.3%	42.9%	0.0%	30.3%	59.5%
Total	100.0%	100.0%	100.0%	100.0%	100.0%

State supported and DCE students combined also had a slightly higher percentage of women overall (57.1%) and a notably higher proportion of women among graduate students (55.6%) (see Table 4 and Table D1 in Appendix D)[12]. These figures tentatively indicate that more women were enrolled among all DCE students and especially among DCE graduate students than among the corresponding state supported student populations.

With the exception of Native Americans, there were lesser percentages of minorities and a higher proportion of Whites among all students than among state supported students alone (see Table 7 and Table D3 in Appendix D). This pattern was consistent across all segments. Though at the state colleges the graduate students among the total population were more racially diverse, overall there were higher proportions of Whites and lesser percentages of minorities among all graduate students than among state supported graduate students alone (see Table 10 and Table D6 in Appendix D)[13]. There also were fewer minorities among all part-time undergraduates than among just state supported part-time undergraduates (see Table 12 and Table D8 in Appendix D). These findings point to a greater enrollment of Whites and lesser percentages of minorities among DCE students than among state supported students.

Conclusions

In the Fall of 1987, relatively low percentages of women and Blacks were enrolled among graduate students. High proportions of women, Blacks, and Hispanics, however, were enrolled as part-time undergraduates and at the community colleges. The highest proportions of White students were at the state colleges. In addition, the community colleges enrolled a very non-traditional student population with the highest mean age, the highest proportion of students at least 30 years old, and the largest enrollment of part-time undergraduates by segment. In contrast, students at the state colleges were much younger and a larger percentage attended full-time, giving this segment a very traditional student population. Students at the universities fell in between these two extremes.

These findings highlight the immediate need for a greater representation of women and Blacks in graduate programs, perhaps beyond the university setting. They also suggest the need to further encourage the transfer of minority students from the community colleges to the state colleges and universities. This issue is addressed in the recent proposal by the Board of Regents to SHEEO (State Higher Education Executive Offices) seeking to establish two collaborative degree programs in teacher education between the community colleges and the state colleges and universities. An anticipated outcome of the proposal is an increase in the transfer and graduation rate of minority students. The findings of non-traditional students at the community colleges but relatively traditional students at the state colleges provide a more complete picture of the populations who would be affected by the implementation of such proposals, and in turn, should help to shape their conception, content, and outcomes.

Conclusive findings concerning the characteristics of DCE students will have to await the results of the DCE survey currently under way. Without definitive answers, however, one could reasonably assume that the DCE population would resemble the population of part-time undergraduates. These students were concentrated at the community colleges and were comprised of high proportions of women, Blacks, and Hispanics. Comparison of state supported students to the combined population of state supported and DCE students provided tentative findings regarding DCE students which largely confirmed this assumption. DCE students, a large percentage of whom did, in fact, attend part-time, were made up of a high proportion of women and were concentrated at the community colleges. However, higher percentages of Whites and lesser proportions of minorities enrolled among DCE students than among state supported students. This apparent dissimilarity between part-time

undergraduates and DCE students might be explained if schools with high minority populations enrolled relatively low proportions of DCE students. In any case, with the exception of minority enrollment, DCE students seem to have shared most of the characteristics of part-time undergraduates.

In sum, the findings on enrollment patterns presented in this report can prove highly useful to different areas of Massachusetts public higher education in determining enrollment policies and planning. It is absolutely critical to understand and continually adapt to the factors shaping enrollment since these can either severely limit or greatly expand the access of women, minorities, and all potential students to public higher education in the Commonwealth.

Notes

[1] Since graduate students generally were much older than undergraduates they were not included in this calculation. Table B14 in Appendix B presents average credit load by age for graduate students.

[2] With the exception of grade level (which includes the undergraduate vs. graduate distinction), all of the percentages presented in the body and appendices of this report exclude unknowns and have been prorated accordingly. Actual headcounts or frequencies are not prorated and thus, the gender, race, and age figures often do not sum exactly to the totals. Separate tables like the one below provide statistics regarding unknown data. Though the percentages of unknown data reported for sex and age were negligible, a notable proportion of the race and ethnic data (12.2%) was unknown (see table below). This in part was due to the fact that responses of "other" were included in the unknown race/ethnicity figures since many institutions did not distinguish between "other" and truly "unknown" cases. Still, the relatively high percentage of unknowns for race/ethnicity should be noted when interpreting these statistics. The 0.1% of all students whose grade level was either unknown or miscoded were counted as undergraduates as were the 0.3% of all students enrolled at the pre-college level.

Unknown Sex, Race, and Age by Segment

Segment	Total	Sex	Race	Age
Universities	58,135	0.1%	15.9%	2.0%
State Colleges	28,871	0.1%	8.5%	1.6%
Community Colleges	41,775	0.3%	9.8%	1.6%
Total	128,781	0.2%	12.2%	1.8%

[3] One full-time equivalent (FTE) was 15 credit hours for undergraduates and 12 credit hours for graduate students. Average credit loads, as shown by the ratio of FTE to headcount, were 87% FTE or 13.0 credit hours for undergraduates, 57% FTE or 6.8 credit hours for graduate students, and 84% FTE or 12.4 credit hours for all students.

[4] Lowell University enrolled a disproportionately low percentage of women among its graduate students (38%) (see Table B5 in Appendix B). When the graduate student data from Lowell are not included in these calculations, women make up a majority of all those who enrolled as graduate students (51.4%).

[5] The percentage of women among all students at Lowell University (37%) was well below that of any of the other universities (see Table A2 in Appendix A). If gender data from Lowell are excluded from these analyses, women comprise the majority (52.2%), not a minority, of all students who enrolled at the universities.

[6] The median age of all students was 21 years old. Most of the variations reflected in mean ages are attenuated for median ages while some disappear altogether. The median age figures in Table A12 of Appendix A indicate that some of the disparity between mean ages was due to the skewness of the distribution. At the community colleges, for example, concentrations of much older students raised this segment's mean age considerably, though its median age remained similar to that of the universities and state colleges.

[7] Age is a key factor in the definition and comparison of traditional versus non-traditional students. Distinguishing all students at least 30 years old provides for examination a group which in no way can be characterized as traditional with respect to age.

[8] The only exception to this pattern by segment, university students 60 years old and older, was due to a high average credit load of students in this age group at the University of Massachusetts at Boston (see Table B12 in Appendix B). When this school is excluded from the calculations of credit load by age, the trend becomes consistent across all segments.

[9] The high proportion of graduate students at the universities and the high percentage of part-time students at the community colleges contributed to the lower credit load averages for these groups of schools.

[10] Data on the combined DCE and state supported student populations were taken from the IPEDS Summary Report for 1987, prepared by the Office of Research and Information Systems at the Board of Regents of Higher Education. It should be noted that IPEDS and RPEDS are completely separate data systems with important distinctions. RPEDS defines "state supported" students simply as those students enrolled in *any* day courses. A student conceivably can have one day course and five DCE courses and still be included in RPEDS. Consequently, if DCE students are similarly defined as those who enroll in at least one DCE course, some DCE students are included among "state supported" students as defined by RPEDS. In addition, RPEDS includes those who are only auditing courses while IPEDS excludes these students. These factors should be noted when drawing inferences regarding state supported versus DCE students based on comparisons of RPEDS and IPEDS data. The IPEDS data system, however, still serves as a useful basis for comparison of RPEDS -- the state supported students -- to the entire population of students enrolled in Massachusetts public higher education. Such comparison reveals many characteristics of the DCE student population, though confirmation of these elements will have to await results of the DCE survey now under progress.

[11] Some of the IPEDS figures presented in this report may not exactly match those in the summary report for two reasons: 1) Two non-state supported schools covered in the summary report, Essex Agricultural and Technical Institute and Quincy Junior College, were not included in the IPEDS data presented in this report to allow for comparison to the RPEDS state supported data; 2) The RPEDS data did not distinguish between first professional and graduate students. Though reported separately in the summary report, IPEDS data from these two groups of students were presented together as graduate student data in this report to allow for comparison to the RPEDS data.

[12] As is evident in Tables D1 and D2 of Appendix D, data simply were not available in the IPEDS summary report to provide a breakdown by gender for full-time and part-time undergraduates.

[13] The University of Lowell states that its RPEDS (state supported) and IPEDS (state supported and DCE combined) graduate student figures are 200 to 300 students too low due to data processing problems in 1987.

Appendix D:

Combined State Supported and DCE Enrollment Data

from the 1987 IPEDS Summary Report

(Tables D1 - D8)

Fall 1987 IPEDS Data -- Table D1

State Supported and DCE - Student Population by All Students (#) and Women (%) by Segment

Segment	Total		Undergraduate		Graduate	
	All	Women	All	Women	All	Women
Universities	65,283	49.0%	52,976	49.2%	12,307	46.6%
State Colleges	48,014	61.8%	40,925	60.2%	7,089	71.1%
Community Colleges	70,472	61.4%	70,472	61.4%	0	---
Total	183,769	57.1%	164,373	57.2%	19,396	55.6%

Fall 1987 IPEDS Data -- Table D2

State Supported and DCE -- Student Population by Gender by Segment (Column %)

Segment	Total		Undergraduate		Graduate	
	Men	Women	Men	Women	Men	Women
Universities	42.2%	30.5%	38.2%	27.7%	75.7%	54.0%
State Colleges	23.3%	28.3%	23.2%	26.2%	24.3%	46.0%
Community Colleges	34.5%	41.3%	38.6%	46.1%	0.0%	0.0%
Total	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

Fall 1987 IPEDS Data -- Table D3

State Supported and DCE -- Race/Ethnicity by Segment (Row %)

Segment	Total Headcount	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	65,283	86.3%	4.0%	2.1%	2.8%	0.3%	4.4%
State Colleges	48,014	95.4%	1.8%	0.9%	0.6%	0.4%	0.9%
Community Colleges	70,472	85.8%	6.2%	4.1%	2.3%	0.4%	1.2%
Total	183,769	88.5%	4.3%	2.6%	2.1%	0.4%	2.3%

Fall 1987 IPEDS Data -- Table D4

State Supported and DCE -- Race/Ethnicity by Segment (Column %)

Segment	Total	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	35.5%	34.6%	33.3%	29.7%	48.8%	29.3%	69.8%
State Colleges	26.1%	28.2%	10.8%	9.3%	7.7%	29.0%	10.4%
Community Colleges	38.3%	37.2%	55.9%	60.9%	43.5%	41.6%	19.8%
Total	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

Fall 1987 IPEDS Data -- Table D5

State Supported and DCE -- Undergraduate Race/Ethnicity by Segment (Row %)

Segment	Total Headcount	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	52,976	89.1%	4.1%	2.0%	2.9%	0.3%	1.6%
State Colleges	40,925	95.5%	1.8%	0.9%	0.6%	0.3%	0.8%
Community Colleges	70,472	85.8%	6.2%	4.1%	2.3%	0.4%	1.2%
Total	164,373	89.3%	4.5%	2.6%	2.1%	0.4%	1.2%

Fall 1987 IPEDS Data -- Table D6

State Supported and DCE -- Graduate Race/Ethnicity by Segment (Row %)

Segment	Total Headcount	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	12,307	74.4%	3.4%	2.8%	2.8%	0.2%	16.4%
State Colleges	7,089	95.0%	1.4%	0.9%	0.8%	0.8%	1.2%
Community Colleges	0	---	---	---	---	---	---
Total	19,396	81.9%	2.6%	2.1%	2.0%	0.4%	10.9%

Fall 1987 IPEDS Data -- Table D7

State Supported and DCE -- Full-time Undergraduate Race/Ethnicity by Segment (Row %)

Segment	Total Headcount	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	38,191	89.3%	3.9%	2.1%	2.7%	0.3%	1.8%
State Colleges	27,043	95.1%	2.1%	0.9%	0.6%	0.3%	1.0%
Community Colleges	28,301	81.7%	7.3%	5.3%	3.0%	0.3%	2.4%
Total	93,535	88.7%	4.4%	2.7%	2.2%	0.3%	1.7%

Fall 1987 IPEDS Data -- Table D8

State Supported and DCE -- Part-time Undergraduate Race/Ethnicity by Segment (Row %)

Segment	Total Headcount	White	Black	Hispanic	Asian	Native American	Non-Resident Alien
Universities	14,785	88.4%	4.7%	1.7%	3.3%	0.5%	1.4%
State Colleges	13,882	96.3%	1.3%	0.9%	0.6%	0.4%	0.5%
Community Colleges	42,171	88.6%	5.5%	3.3%	1.9%	0.4%	0.3%
Total	70,838	90.1%	4.5%	2.5%	2.0%	0.4%	0.6 %
